

# what do our FAMILIES say

"Our daughter was diagnosed as profoundly dyslexic in the 2<sup>nd</sup> grade. We knew that something wasn't quite right when she would try to write and read. She would read a word on one line, and then not be able to recognize the same word two lines later. She struggled to spell high-frequency words and she just didn't seem to be progressing like she should be. At first, we were devastated. We didn't know where to turn, and spent thousands of dollars on 'treatments' that claimed to help dyslexic students. When we finally found the Susan Barton program (Dyslexic Program) at NWCS, we were so thrilled! It is giving her the skills that she needs to read, write and spell successfully. After two years she is almost reading at grade level, and knows more spelling rules than I do! I only wish we would have found it sooner!"

*"I praise you because I am fearfully and wonderfully made"*

*Psalms 139:14*

At Northwest Christian Schools, we know that God has uniquely designed each one of us. We have been given "everything we need for life and godliness." (2 Peter 1:3). We recognize that each student is designed by a sovereign Creator, and therefore, we greatly appreciate their individual value.

## What We Believe:

- When a child's learning needs are being met, the child can focus more clearly on spiritual matters.
- Growth should be the goal in learning. The process may look different and take longer, but **all** children can grow to their God-given potential.
- The dignity of each child is of paramount importance.
- Learning Center programs cannot succeed in isolation. There must be a team approach that includes the administration, classroom teacher, parents, and even outside resources, when necessary.

## What Services Do We Offer?

When classroom support is not enough...

### Dyslexic Program:

We use the Susan Barton Reading and Spelling Program. This is an Orton-Gillingham based curriculum that has been research proven as the most effective way to teach a dyslexic student how to read, write, and spell.

\*The Dyslexic Program is a three-five+ year commitment depending on the student's level of need.

### Math Support Program:

For students that qualify for math support, we offer small group specialized instruction.

*"There are different kinds of gifts, but the same Spirit distributes them."*

*1 Corinthians 12:4*

## Pricing:

Evaluation & Report-Math	\$100.00
Evaluation & Report-Reading	\$250.00
Annual Program & Materials	\$750.00

These fees are for services provided **above and beyond** what the regular classroom teacher provides.

## Additional Services:

### Speech

The Learning Center has partnered with Spokane Speech Language Pathology (SSLP) in order to offer parents an on-site alternative to public school speech therapy service. Parents are responsible for payment directly to them. SSLP accepts and bills most insurance. This is an independent provider and all questions regarding their services can be directed to:

Megan Jimeno, Speech Language Pathologist  
Spokane Speech Language Pathology, PLLC
